Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Wednesday 28 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Brightening up on Wednesday, showers and a frost tonight.

Today:
Bright but often cloudy with a scattering of showers across the far north, perhaps wintry over high ground. Best chance of any sunshine to the south and east. Colder than Tuesday. Maximum temperature 10 deg C (50 deg F).

Tonight:
A cold night with a mixture of clear spells and scattered showers, wintry over high ground. A frost is expected away from coastal areas. Minimum temperature -1 deg C (30 deg F).

Thursday:
Sunny spells and showers feeding in from the coast during the morning, wintry over high ground. Feeling cold, with temperatures below average. Showers confined to coastal areas in the evening. Maximum temperature 9 deg C (48 deg F).

Outlook for Friday to Sunday:
Sunny spells and showers on most days, occasionally heavy, particularly on high ground. Largely dry and clear overnight, but cold with a frost. Perhaps cloudier and less cold on Saturday.
